Westell SmartCom® | A90-SCC2418-VMT
Weather-tight, secure outdoor cabinet

General Information

The Westell SmartCom Cabinet (SCC) is a ruggedized, secure, and weather-tight outdoor cabinet that includes a stainless steel mesh back plate to provide universal mounting locations for a wide variety of electronic equipment and networking solutions.

The cabinet is well suited for the telecom, Internet of Things, transportation, utility, security, and government markets which often require a weather-tight enclosure for above-ground, outdoor applications.

Product Highlights

• Ruggedized, NEMA 4, weather-tight and secure outdoor cabinet

• Aluminum, powder coated construction

• Front door mounted solar shield

• One, large, lockable door for access to equipment

• GORE™ vents to equalize pressure within the cabinet

• Internal, stainless steel, mounting screen backboard (17" x 22"), for mounting a wide range of internal equipment

• Multiple hole knock-outs for various cables or Telco feed

• One exterior ground lug and an internal ground bus

• Secure, tamper-resistant enclosure; cup-washer screws require 216 tool or can wrench, plus holes for a padlock

• -40° C to +46° C operation (with solar loading)

• H-frame, pedestal, post, pole, or wall-mountable

• UL50 Type 3R

Applications

• Telcom

• IoT (Internet of Things)

• Transportation

• Utility

• Security

• Government
