The Boxer® and Boxer® Plus Series Outdoor Enclosure System:

Capacity & Components:

- Boxer outdoor enclosures support 19" internal rack rails.
- Boxer Plus outdoor enclosures add support for both 19" and 23" internal rack rails and is sized wider and deeper than the Boxer series.
- Boxer and Boxer Plus outdoor enclosures consist of an equipment cabinet, cooling options, and mounting options.

Mounting Options:

Wall/H-Frame Mounting:

- Wall/H-frame mount for the main enclosure is a standard feature built into Boxer cabinets / outdoor enclosures.
- To Wall/H-frame mount a main enclosure with a battery box an additional mounting kit is required to support the extra weight of the batteries.

Pole Mounting:

- Pole mounting is possible by using the applicable pole mount kit.

Pad Mounting:

- Pad mounting is possible for the entire Boxer and Boxer Plus families except the Boxer 5 Slide.

- The Boxer family requires an optional battery box or plinth for pad mounting.
- The Boxer Plus family can be mounted directly to a pad with or without a battery box or plinth and with an optional pad mount kit.
